

## Project Description

We love CATS Because why not?

This is how we decide the name and theme of our website.

Our CattyPlanner enable users who do not have to be technical experts to easily plan and manage their birthday, parties, family gathering, graduation and MORE! We offer several features such as create event, check event and browse event for users to inspire them with decent idea and ensure them to have a great overall experience.

## Credits

<https://splashthat.com/>

The screenshot shows the Splashthat homepage. At the top, there is a navigation bar with links for Product, Pricing, Solutions, Customers, Community, Resources, and Support. To the right of the navigation are Sign In, Try for Free, and Request Demo buttons. Below the navigation, a large headline reads "One platform. One process. All your events." A sub-headline below it says, "Meet the world's easiest event marketing solution for virtual, in-person, and hybrid events." There are two buttons at the bottom of this section: Try for Free and Request a Demo. A cookie consent banner is visible at the bottom left, with options to Accept All Cookies or Cookies Settings.

Splashthat as the world's easiest event marketing solution for virtual, in-person has provided us a lot of design inspiration and ideas

Not only it contains very similar functionality to the goals of our project but is also demonstrate us what some of the full-fledged event planning features should look like.

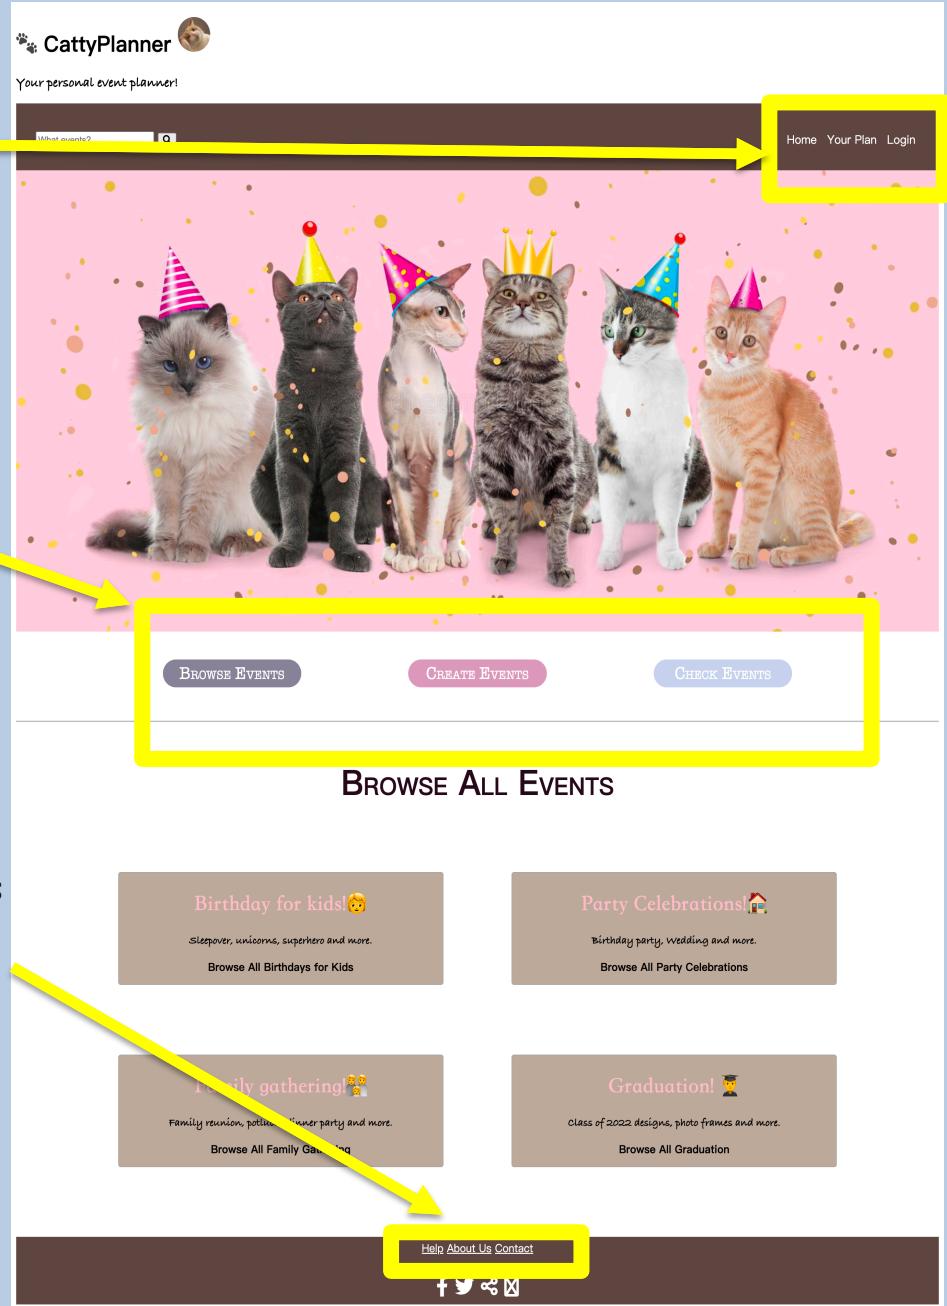

# Features

## Home page

### · Navigation bar

Our navigation bar provides quick access to a number of sub-pages that contain the necessary

functionality of CattyPlaner  especially the YOUR-PLAN page and Login page.

### · Quick access label

The Quick access label here allow users to navigate between three of the main functionality regarding to creating, browsing and checking. their own events.

### · Footer

In the footer section we provide quick access for users who has trouble using the website and for those who wants to learn more about us. We also embrace the people who wants to share their valuable ideas and opinions on our website by contacting us directly through email, facebook, twitter or Instagram.

# Features

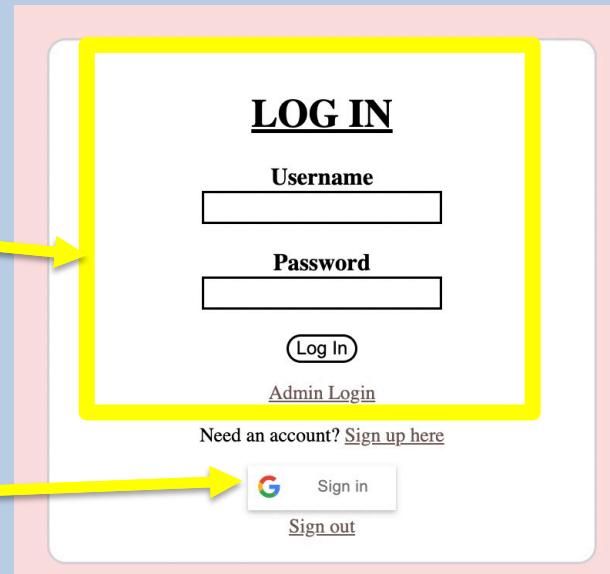

## Login page & Sign up

- **Login**

This is a quick glance at our login page. We require the Username and Password from the user in order to access and manage their own event.

- **Sign up**

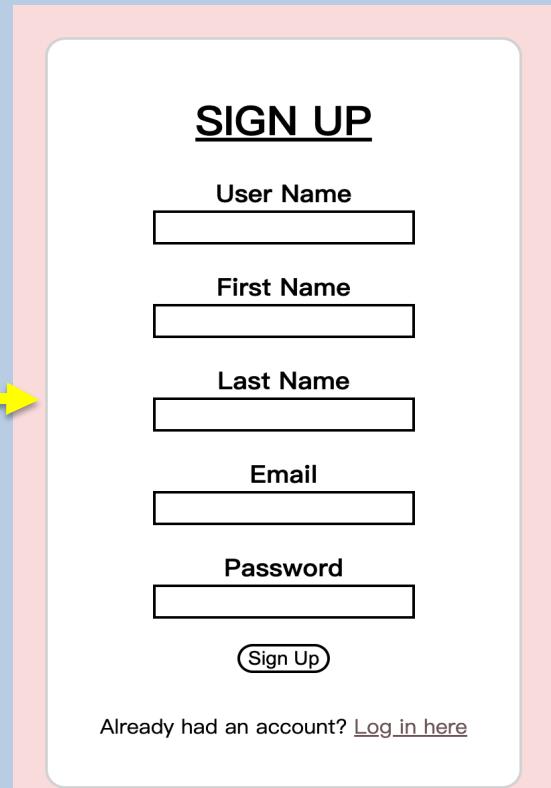

If the user does not have an exist account, they can register one quickly through the hyper link here!

The image shows a login form with a yellow border. At the top right is a "LOG IN" button. Below it are fields for "Username" and "Password", each with a corresponding input box. Underneath the password field is a "Log In" button. To the right of the "Log In" button is a link "Admin Login". At the bottom left is a link "Need an account? [Sign up here](#)". At the bottom right is a "Sign in" button with a Google icon, and below it is a "Sign out" link.

- **Sign up**

By providing a few simple information the users can then register their own account. If they have an exit account, they can click on the 'login in here' hyper link to head back.

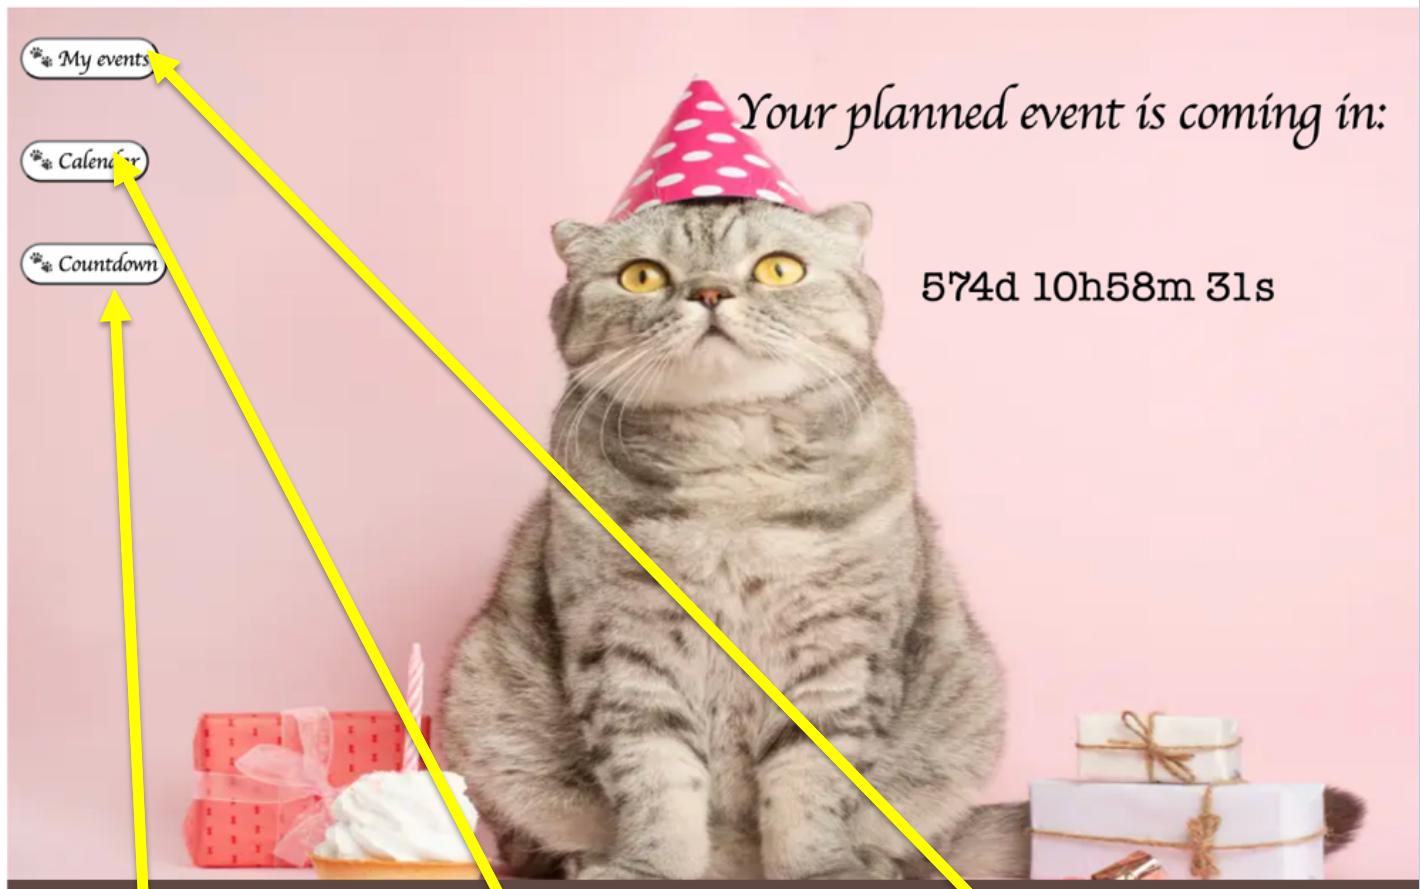

The image shows a sign up form with a yellow border. At the top right is a "SIGN UP" button. Below it are fields for "User Name", "First Name", "Last Name", "Email", and "Password", each with a corresponding input box. At the bottom right is a "Sign Up" button. At the bottom left is a link "Already had an account? [Log in here](#)".

# Features

Your-plan

## CHECK YOUR EVENTS

### · Countdown

As you can see, the current web page you see is the countdown page. It reminds the user how much time they have left before the event.

### · Calendar

This lead the user to the page where they can check the exact date and time of their event on a calendar.

### · My event

The My event button here leads the user to the page where they can check and edit the name, time, address of their event.

# Features

## Create event page

Choose your event type: Selecting...

Event Name:

Location Address:

Street Number:

Street Name:

City:

Post Code:

Start Date/Time:

年 /月/日  月  日  时  分  秒

### Create event page

This is the overall look of our crucial sub-page, Create-event.

We allow our user to specifically set the details of the event here, such as the event type, name, address and date. By clicking the button 'Create', all the information will be stored and send to our website.

### Dropdown list

The dropdown list here has provided a lot of choices for the user to determine the types of the event.

CREATE YOUR EVEN

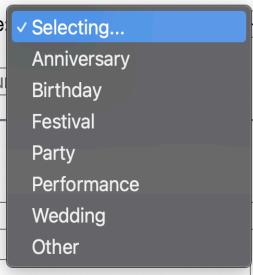

Choose your event type:

Event Name:

Location Address:

Street Number:

Street Name:

- ✓ Selecting...
- Anniversary
- Birthday
- Festival
- Party
- Performance
- Wedding
- Other

Location Address:

Street Number:

Street Name:

City:

Post Code:

### Input

We set up some limitations here just in case the users type in a bunch of value that does not make any sense or, does not correspond to what is required.

For example, in the street number box, if you type in characters rather than number, you will receive an error message.

# User Instruction

## 1. login/Create your own Account

The image shows a 'LOG IN' form with fields for 'Username' and 'Password', a 'Log In' button, and a 'Admin Login' link. Below these are links for 'Sign up here', 'Sign in' (with a Google icon), and 'Sign out'. A yellow arrow points from the text 'Need an account? Sign up here' to the 'Sign in' button.

Of course, you can log in via your Google account as well.

## 2. Manage your account

MANAGE YOUR ACCOUNT

The image shows a 'Profile' section with details: Username: 01, First Name: harley, Last Name: shen, Email Address: harlilly01@gmail.com, and Mobile: +61 451902843. There is an 'Edit' button. Below it is an 'Email Subscription' section with a checked checkbox for 'I would like to receive notification'. It lists options for 'Let me know when:' including 'users responded', 'availability is confirmed', 'the event is finalised', and 'the event is cancelled'. A 'Log out' button is at the bottom.

Once you log in, you can start to edit your personal profile.

The image shows a 'CREATE YOUR EVENT' form. Fields include 'Event Type' (dropdown: Selecting...), 'Event Name' (text: create your event name...), 'Location Address' (Street Number, Street Name, City, Post Code), 'Start Date/Time' (date picker: dd/mm/yyyy, time: -- : -- : --), and buttons for 'Create', 'Check Event', 'Send an Email', 'Add to Calendar', and 'Share Link'. Two yellow arrows point from the text 'Once an event is created, an email will be received at the user's email address.' and 'The share link function here allows you to share a link which contains event details to other people.' to the 'Send an Email' and 'Share Link' buttons respectively.

## 3. Create Your Event.

When you navigate to the Create Event page (You will see the button at the main page), you can create your event.

Once an event is created, an email will be received at the user's email address.

You can add your event to the calendar.

The share link function here allows you to share a link which contains event details to other people.

Our website also provides a functionality which allows the user become the 'manager'.  
The 'manager' account will be able to check and manage other users' event detail.

## **SIGN UP**

**Access Key**

**Manager Name**

**Password**

**Sign Up**

## **USER DETAILS**
